May 10, 2016

East Carolina University
Attention: Eddie Johnson

Dear Eddie,

In accordance with our discussions regarding our modest price increase starting May 2016 please see the table below:

| | |
|--|--|
| Current Unit Pricing (bsc - clean bench) | Unit Price Starting May 1, 2016 (bsc - clean bench) through May 1, 2019. |
| \$150.00 bsc / \$75.00 lfc | \$160.00 bsc / \$85.00 lfc |

Basically the increase is \$10.00 per unit. In looking back at our records, the current price has not increased since 2013. Before that prices were as follows:

| Year | Unit Pricing (bsc - clean bench) |
|-----------------|----------------------------------|
| 2006 | \$195.00 / \$110.00 |
| 2008 | \$160.00 / \$95.00 |
| 2010 | \$170.00 / \$90.00 |
| 2011 & 2012 | \$140.00 / \$70.00 |
| 2013 to present | \$150.00 / \$75.00 |

It is not our intent to continually raise your unit pricing but rather to cover our ever increasing cost per employee. As you can see from above the price increase this year is the first in 3 years and still is lower than it was over 6 years ago. We understand ECU is on a tight budget so we make every attempt to keep our unit pricing reasonable and lower than our standard rate charged to other customers. We do not expect to have to look at the per unit price again until 3 years in 2019.

Please do not hesitate to contact me if there is any question or if further information is needed. We sincerely appreciate your business and trust in our expertise.

Sincerely,

Paul Falcon 10MAY2016
